I will make sure my passengers & I each have a properly fitted & adjusted U.S. Coast Guard approved life jacket & know how to put it on. I understand that my passengers & I should wear a life jacket at all times when boat is in operation.

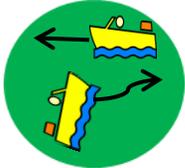

I have been informed by the rental company of local hazards. I am aware of the Canadian border and will follow marine law while operating the rental watercraft.

I have assigned one responsible adult to keep track of the whereabouts & safety of each child on board. I understand that a life jacket sized for adults are unsafe for children.

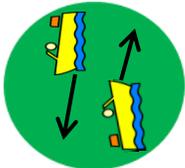

I understand that 5 short blasts of a horn or whistle signal danger or need for assistance. I understand a a ship-to-shore radio is onboard and the Coast Guard or Marine Division can be contacted on channel 16.

I understand when crossing the path of another boat, I should yield to the boat on my right (starboard)
IF I OR THE OTHER BOAT FAIL TO ACT
 I understand there is the threat of a collision & it's my responsibility to slow down, steer away and/or stop.

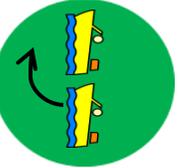

I understand that it's recommended I take a safe boating course approved by NASBLA through the U.S. Coast Guard Auxiliary, United States Power Squadron which would help me when I rent or operate boats.

I understand that when I meet another boat head-on I should steer to the right (starboard).
 I understand that I must yield to all boats under sail.

I understand there is an awareness zone that includes the front, sides, rear & swim platform that extends 30 feet behind & around the boat. I will educate all my passengers of the zone & I will not allow anyone in the zone unless the motor is turned off for a 10 count & the keys are removed.

I understand that when I overtake another boat I should pass on the left (port) side, leave plenty of room & yield to that boat. If conditions require it, I may pass on the right (starboard) side.

I understand the motor of a boat produces Carbon Monoxide, a colorless, odorless & lethal gas that can quickly affect people in the awareness zone. I will not use any generator on this boat.

I understand that under Federal and/or State law it is a crime to operate a boat while persons are sitting on the front, sides, rear or swim platform. This behavior is considered grossly negligent operation of a boat.

I understand this boat has NO BRAKES, so stopping quickly may be difficult if I'm going too fast.

I will take a head count to make sure all passengers are accounted for before starting the motor.

I understand that using alcohol, drugs & certain prescription medication may impair my ability to operate this boat safely. I will not operate this boat or allow anyone else to operate this boat while under the influence of alcohol or drugs.

I understand it's dangerous to sit on the front of the boat platform because a slip between the pontoons will "funnel" a passenger into the boat propeller.

I will not permit swimming, diving, sliding or jumping from or near the boat unless the motor is turned off, the keys are removed & I counted to 10 for propeller to stop. I will check that the water is deep enough before head first diving. I will instruct my passengers never to dive or jump off a moving boat.

I have been informed of the total weight capacity of 12 people or 1640 lbs. for this boat. I will not exceed that limit. I understand overloading this boat is unsafe & against the law.

I will not operate this boat at speeds that are unsafe For the conditions.

I will obey all no wake zones.

I have been instructed on how to use the navigation lights & anchor lights on this boat & I will display them properly if I need to operate at night when visibility is poor.

I will make sure there is a lookout other than the boat operator whenever passengers or parts of the boat obstruct the operators view.

I will make sure that I, or someone who knows how to operate the boat, remain on boat whenever the boat is unanchored.

I will anchor where it is easy for other boats to see this boat so long as the area is anchor-able.

I will anchor this boat from the front (bow) only.

I have been instructed on what to do in case of a person overboard, collision or other dangerous situations.

I will contact Michigan Boat Rentals LLC if any problems occur. I will only use the tow service provided.

I understand this boat is equipped with an engine cut-off device, I will use it while the boat is in operation.

I understand that this boat has an emergency kit aboard with all required U.S. Coast Guard safety equipment.

I will not pull or tow tubes or any other water sport equipment while boat engine is in operation.

I will not use any firearms, weapons of any kind including projectable firing devices such as airsoft, archery or paintball on the boat. I will not bring aboard or launch fireworks of any kind.

I understand that no pets are allowed aboard the boat Unless preapproved with the rental office.

I understand that all children 13 and under are required to wear a U.S. Coast Guard approved life jacket at all times.

I understand that smoking or cooking with a heating element is not permitted onboard the boat, any damages will be at my expense. I will not allow myself or any of my passengers to smoke.

I understand the canal access just north of Lakeside Beach has multiple hazards such as shallow water & rocks that cause damage I am responsible for & therefore not allowed. If I choose to use this canal I am responsible for any damage it may cause to the boat.
